

## **Standish Conservation & Open Space Plan Committee**

June 26, 2008

7 PM, Standish Town Hall, Council Chambers

### **Homework to Prepare for the Meeting:**

- Please read through the meeting notes from the small group exercises included in your meeting packet. Please highlight those items that you think should be considered “key findings” from the meeting.
- If you attended the meeting, please jot down some notes regarding what you thought worked and didn’t work about the meeting (its format, questions asked during the small group exercises, etc). (The questions posed to the public during the group exercises are also included in the meeting notes.)
- *What should be the focus of our work over the summer?*

[Note: Last meeting, Sally Stockwell presented a series of analyses that Maine Audubon can assist with regarding work with the Beginning with Habitat information (creating overlays of the important habitat areas to find potential priority areas for protection, for instance). This analysis will be completed over the summer, ready for when the Committee reconvenes in September.]

### **Agenda**

1. **Welcome & Introductions**, Council Chair Lou Stack, 5 minutes
  - Review Agenda
2. **Discussion of Outcomes from Public Meeting**, 30 minutes
  - Review homework assignment (see above).
3. **Subcommittee Work**, 60 minutes
  - Prepare ‘To Do’ list for Plan staff and committee work for over the summer.
  - Review Draft Cultural/Historic and Recreation/Scenic map that was used at the Public Workshop (we have results of the public’s review and their additions/corrections to the map).
4. **Adjourn**, around 9:00 PM
